Fields of clinical-scientific research interest

1. The anatomy and histology of female urogenital tract,
2. Female stress urinary incontinence,
3. Gynecologic surgery,
4. Female genital cosmetic-plastic surgery,
5. Mycologic infection of female genital tract.

1. NEW ANATOMICAL and HISTOLOGICAL DISCOVERIES

- The urethral stabilizing mechanism (Ostrzenski A. Eur J Obstet Gynecol Reprod Biol. 2019 Jun;237:164-169.
- The Infrafrenulum fascia bundle histology (Ostrzenski A., Clin Anat. 2018 Sep;31(6):907-912.

- The adipose sac anatomy (Ostrzenski et al., Arch Gynecol Obstet. 2016 Sep;294(3):549-554).
- The adipose sac histology (Ostrzenski et al., Arch Gynecol Obstet. 2016 Sep;294(3):549-554).
- G-spot anatomy verification (Ostrzenski et al., Brit Int J Obstet Gynecol. 2014 Oct;121(11):1333-1339).
- The G-spot histology (Ostrzenski et al., Brit Int J Obstet Gynecol. 2014 Oct;121(11):1333-1339).
- The G-spot role in genesis of anterior vaginal wall ballooning (Ostrzenski A. Eur J Obstet Gynecol Reprod Biol. 2014 Sep;180:186-191).
- The G-spot anatomy (Ostrzenski A. J Sex Med 2012;9:1355-1359).
 - *2012, the article ranking by BioMedLib[®] number one in the world (selected from 23-million domain).*

OSTRZENSKI'S NEW ULTRASONOGRAPHIC DIAGNOSIS of ANATOMICAL ABERRATIONS

- The new diagnosis of paravaginal defect in female stress urinary incontinence utilizing ultrasonography technology (Ostrzenski and Osborne. Int Urogynecol J Pelvic Floor Dysfunct. 1998;9(4):195-199).
- The new diagnosis of patent urachal sinus by (Ostrzenski et al. Int Urogynecol J Pelvic Floor Dysfunct. 1998;9(1):52-54).

2. FEMALE STRESS URINARY INCONTINENCE

- The etiology of female stress urinary incontinence (Ostrzenski A. Eur J Obstet Gynecol Reprod Biol. 2020 Feb;245:26-34).
- A surgical therapy for female stress urinary incontinence without using slings or meshes (Ostrzenski A. Eur J Obstet Gynecol Reprod Biol. 2020 Feb;245:26-34).
- A surgical therapy for female stress urinary incontinence by laparoscopic paravaginal reconstruction. (Ostrzenski A. J Reprod Med. 1998 Jun;43(6):477-82).

3. GYNECOLOGICAL SURGERY

Laparotomy and Vaginal Approaches

- Lateral vaginal wall reconstruction (completed study submitted for publication)
- New perineal body reconstruction (completed study and submitted for publication)
- Total abdominal hysterectomy with new posterior culdoplasty and vaginal vault suspension (Ostrzenski, Gynecol Obstet Invest 1998;45(4):262-265).

Pelvic Reconstructive Surgical Techniques

- New modified posterior perineoplasty (Ostrzenski A. J Reprod Med. 2015 Mar-Apr;60(3-4):109-116).
- Posterior culdoplasty (Ostrzenski A. J Reprod Med 1999;44:504-510).
- Vaginal colpexy for total vaginal prolapse WITHOUT surgical meshes or permanent sutures (Ostrzenski A. Int J Gynecol Obstet 1996;55:147-152).

New Endoscopic Surgical Techniques

- A new parallel technique of Veress needle insertion (Ostrzenski A. Fertil Steril

1999;71:578-581).

- Laparoscopic paravaginal reconstruction (Ostrzenski A. J Reprod Med 1998;43:477-482).
- Laparoscopic myomectomy with tourniquet and suturing myometrium in layers (European J Obstet Gynecol & Reprod Biol 1997;74:189-193).
- Laparoscopic hysteropexy for uterine prolapse (Ostrzenski A. J Reprod Med 1997;43:361-366).
- Localizing fragment of broken laparoscopic instruments intraoperatively. Am J Obstet Gynecol 1997;176:726-27.
- Laparoscopic technique for interstitial/corneal ectopic pregnancy resection (Ostrzenski A. J Reprod Med 1997;42:363-366).
- Total laparoscopic hysterectomy with posterior culdoplasty and vaginal vault suspension (Ostrzenski A. Int J Gynecol Obstet 1996;55:247-257).
- New laparoscopic radical hysterectomy with pelvic node dissection (Ostrzenski A. Eur J Surg Oncology 1996;22(6):602-606).
- Laparoscopic colpopexy for total vaginal prolapse (Ostrzenski A. Int J Gynecol Obstet 1996;55:147-152).
 - A competitive monetary price winner awarded by The German-Turkish Gynecologic Association, Anatolia, Turkey, April 2007.
- Ostrzenski A. A new, simplified posterior culdoplasty and vaginal vault suspension during abdominal hysterectomy. Int J Gynecol Obstet 1995;49:25-34.
 - Abstracted in Obstet Gynecol Survey 1996;51(2):94-95.

- This surgical technique quoted in: Rock JA, Tompson JD. Eds. Te Linde's Operative Gynecology. Eighth Edition (50th Anniversary Edition.) Lippincott-Raven. Philadelphia-New York 1997;p 813 and 851.
- Laparoscopic full-thickness ovarian biopsy (Ostrzenski A. J Gynecol Surg 1995;11:109-112).
- Laparoscopic ovarian wedge resection (Ostrzenski A. Int J Fertility 1992;37(5):295-299.
 - included in the Yearbook of Infertility 1993.
 - Abstracted in: Fertility Digest 1993;No. 5.

New Hysteroscopic Method

Minimizing cervical trauma during dilatation by inserting Laminaria Digitata preoperatively (Ostrzenski A. Int J Fertility 1994;39(2):111-115).

4. NEW SURGICAL TECHNIQUES of COSMETIC-PLASTIC GGYNECOLOGY

- Labiolysis of the labia minora a new corrective surgery for iatrogenic labium minus fusion. (Ostrzenski A. Ann Plast Surg 2019;83: 558–567).
- Clitoral frenuloreduction, a new surgical intervention for aesthetic motives. Ostrzenski A. Heliyon. 2019 Jan 18;5(1):e01098. doi: 10.1016/j.heliyon.2018.e01098).
- G-spotplasty, a new surgical intervention for secondary G-spot dysfunction (Ostrzenski A. Aesthetic Plast Surg. 2018 Aug;42(4):1126-1132. doi: 10.1007/s00266-018-1137-7. Epub 2018 Apr 20).

- A new prepuceplasty surgical technique for prepuce of the clitoris restoration with anterior commissure transposition (Ostrzenski A. J Reprod Med. 2015 Mar-Apr;60(3-4):178-82).
- Fenestration labioreduction of the labium minus, a new surgical intervention that preserves shape, color, and reduce size as well as establishes symmetry. This procedure also restores integrity of the fourchette.
(Ostrzenski A. ISRN Obstet Gynecol 2014;http://dx.doi.org/10.1155/2014/671068).
 - *2014, the article ranking by BioMedLib[®] number two in the world (selected from 23-million domain).*
- A labiopexy technique by Colles' fascia reconstruction for labium majus rejuvenation (Aesth Plast Sur 2014;38:544-560).
 - *2014, the article ranking by BioMedLib[®] number one in the world (selected from over 23-million domain).*
- A labia majora labioplasty technique by reconstruction of the newly discover the adipose sac (Aesth Plast Sur 2014;38:544-560).
- A new vaginal introital reconstruction for sensation of the wide vagina (Ostrzenski A. J Reprod Med. 2014 May-Jun;59(5-6):327-329).
